

WA Regional Achievements and Community Awards

Hancock Prospecting was pleased to return as sponsor of the WA Regional Achievements and Community Awards, which are designed to encourage, acknowledge and reward the valuable contributions individuals, communities and businesses are making throughout regional and rural West Australia.

Hancock Prospecting proudly supports the Rinehart Development of Northern Regional WA Award, with the 2017 award recipient being the Pilbara Meta Maya Regional Aboriginal Corporation, based in Wedgefield, which provides Aboriginal people living in 29 remote communities with essential services such as power and water. Other services include property management, support and tenancy education, environmental health and municipal services. The Corporation is a 100% Aboriginal owned, not for profit organisation employing 90 people with a Board of seven Elders.

Hancock Prospecting sends their best wishes and congratulations to all award recipients and finalists of the 2017 WA Regional Achievements and Community Awards.
